natural element homes

Premium Select Log Home Package

#	Item	Description
1	SUBFLOOR SYSTEM	2x8 Treated Sill Plates, LVL Girder Beam, 11-7/8 inch TrusJoists - 16-in. O.C., blocking between joists, 1-1/8-inch perimeter rimboard for band, Advantech (TM) 3/4-in. tongue & groove subfloor decking, subfloor adhesive. No joist hangers are included.
2	DECK AND PORCH FLOOR PACKAGE	Double 2x8 treated deck perimeter band, 2x8 treated joists - 16-in. O.C., 5/4-in. x 6-in. radius edge Composite wood grain floor decking. No support girders (for spans over 12-feet), joist hangers, plates or posts to grade are included.
3	EXTERIOR RAILING	Douglas Fir - 4x4 top and bottom rails with eased edges, 3x3 pickets with eased-edges on 7-inch centers. Lengths of timbers to be site-cut by builder.
4	LOG WALL SYSTEM	Eastern White Pine (pinus strobus) interlocking double tongue & groove logs. Sanitized with Timbor(TM) and/or kiln temperatures, pre-cut corner joinery system, pre-cut spline notches, pre-cut window and door openings*, pre-drilled with countersinking, 3/8 x 14-in. lag bolts and washers, grade stamped to TPI standards, double strips of closed-cell insulation gasket, installation caulking, dovetailed interlocking splines, window & door rough opening frames with splines, blueprints and log wall erection diagrams, log bundles wrapped. (*minor trimming and odd-shaped openings may need to be cut on site). 8x12 = 10 courses = 111-inches tall.
5	LOG CORNER JOINERY	Butt-and-Pass, Saddle Notch, or Dovetail
6	WINDOW & DOOR OPENINGS	Inset Mounting: Door and window openings in log walls are cut to allow special frame, window unit and window trim to fit inside the opening. The entire unit and trim are sealed inside the opening, and settling occurs inside the opening.
7	SECOND FLOOR SYSTEM	4x8 Douglas Fir Joists 24-in. O.C., 6x12 Douglas Fir Girder Beam, Douglas Fir support posts with adjustable screw jacks, 2x6 Premium Spruce Tongue & Groove Decking, Screws for each end of joists. Local codes or particular home design may require larger sized timbers (not included – must be added to line 27 below).
8	INTERIOR STAIRS	4x12 Douglas Fir Material for Stringers and Treads to 9-ft. high , Must be cut on site by Owner. (This item does not include material for landings).
9	INTERIOR RAILING	Douglas Fir - 4x4 top and bottom rails with eased edges, 3x3 pickets with eased-edges on 7-inch centers. Lengths of timbers to be site-cut by builder.
10	EXTERIOR FRAMED WALLS	2x6 Wall framing with Huber ZIP sheathing and joint tape (house wrap not required due to ZIP panel).
11	EXTERIOR SIDING	Your choice: Western Red Cedar (WRC) irregular edge Skirl siding, WRC 1x12 board-and-batten siding, or WRC shingle siding.
12	FRAMED WALL CORNER BOARDS	2x6 Western Red Cedar boards for capping exterior wall corners.
13	INTERIOR WALL FRAMING	2x4 Interior wall studs - 16-in. O.C., double top plates, single bottom plates. (2x6 framing for plumbing walls).
14	HOUSE ROOF SYSTEM	Exposed 4x8 Douglas Fir rafters 48-in. O.C., 4x8 Doug Fir collar ties with bolts, nuts and washers for side-mount collar attachment, 4x12 Doug Fir ridge, valley and header beams, Doug Fir support posts (6x6 or 8-inch round), 2x6 premium spruce tongue & groove decking, 30# felt vapor barrier, R30 rigid insulation with molded ventilation channels and solid 2x wood perimeter, 24 installation screws per panel, 1/2-in. ZIP roof sheathing, ZIP tape (ready for finished roofing), screws for rafter installation. Local codes or particular home design may require larger sized timbers (not included – must be added to line 27 below).
15	INTERIOR CEILINGS	2x6 Premium Spruce T&G roof decking
16	PORCH ROOF SYSTEM	Exposed 4x8 Douglas Fir rafters 48-in. O.C. and 4x8 support plates, 6x6 Support Posts, 2x6 tongue & groove decking, 30# felt underlayment. PORCH ROOF IS NOT INSULATED. Local codes or particular home design may require larger sized timbers (not included – must be added to line 27 below).
17	PORCH ROOF CEILINGS	2x6 Premium Spruce T&G roof decking
18	GARAGE ROOF SYSTEM (IF APPLICABLE)	Pre-manufactured flat roof trusses with light storage capacity, 2x framing for roof overhangs. 1/2-inch ZIP sheathing, ZIP tape. Includes 3/4-in OSB subfloor sheathing for storage floor.
